Beware the Garbage Monster!

# Faraday School Eco Fair June 5, 2008

Reduce, Reuse, Recycle!  
These are some creative ways to do it.

Litterless Lunches are important so there are  
no more garbage monsters!

## Faraday School Eco Fair June 5, 2008

How can we keep our world clean?

No more wasted paper. We can make our own!

## Faraday School Eco Fair June 5, 2008

How many different ways can you think of  
to take care of our world?

Plastic bags can be reused to make yarn.  
The yarn will make mats, tote bags and anything else you  
can think of.

## Faraday School Eco Fair June 5, 2008

Our beautiful world inspires our art.

Water can be conserved, and we know lots of ways to do it.

## Faraday School Eco Fair June 5, 2008

Make a Garden of your own!

Leeanne Kehler, story teller extraordinaire!

## Faraday School Eco Fair June 5, 2008

Leeanne in story telling mode.

## Faraday School Eco Fair June 5, 2008

## Faraday School Eco Fair June 5, 2008

The clothing sale - another way to reuse and recycle.

The prizes - earth friendly transportation

## Faraday School Eco Fair June 5, 2008

Manitoba Hydro urges us to be power smart.

A health snack

# Faraday School Eco Fair June 5, 2008

Mrs. Bennett's class teaches us about worms.

Ms. Tourangeau learns about the greenhouse effect.

## Faraday School Eco Fair June 5, 2008

Mr. Mark can find music anywhere!

To Mr. Mark the whole world is a musical instrument.

## Faraday School Eco Fair June 5, 2008

Mr. Cockrem and friends are about to experience drumming at close range.
