PHYSICAL ACTIVITY SAFETY CHECKLISTS

CYCLING — INDOOR / STATIONARY (Spinning®, Studio Cycling, or Powerpacing)

Indoor/stationary cycling is a form of high-intensity exercise that involves using a stationary bicycle and includes completing programs such as "spinning," "studio cycling," and "powerpacing."

Risk Factor Rating

1

General Learning Outcome

The student will demonstrate safe and responsible behaviours to manage risks and prevent injuries in physical activity participation and for daily living.

Risk Management Strategies

Safety information and recommendations contained in this safety checklist are believed to reflect best practice to reduce risk. The suggested risk management strategies are considered minimum standards for physical activity in an organized or formal setting. They may not apply to all situations (e.g., home-based, recreational, or modified activities), and more stringent safety standards may be applied by instructors/coaches/program leaders of OUT-of-class physical activities in organized programs.

Instruction

Note: The amount and level of instruction/directions required by the student may vary based on circumstances such as the student's personal experience, skill level, and physical condition. The use of media resources, such as books and instructional videos, may replace direct instruction if deemed appropriate and safe.

Instruction is received from an instructor certified by the Manitoba Fitness Council or from an experienced instructor capable of demonstrating competencies of a certified instructor, as is appropriate, depending on various factors such as level of risk, intensity, accessibility, experience, and skill

All sessions are conducted in a safe environment, with students aware of potential risks of indoor cycling

Safety rules and procedures are learned prior to participation

Skills/movements are learned in proper progression

Each session is conducted with an appropriate warm-up and cool-down

Drinking water is available and consumed as needed

Program adheres to basic fitness and training principles

Supervision

Note: The level of supervision is provided as is appropriate, depending on various factors such as level of risk, intensity, accessibility, experience, and skill.

Recommended level of supervision: on-site supervision during initial instruction

Safety rules and procedures are enforced

Emergency action plan is in place to deal with accidents/injuries

PHYSICAL ACTIVITY SAFETY CHECKLISTS

CYCLING — INDOOR/STATIONARY (SPINNING®, STUDIO CYCLING, OR POWERPACING)

Facility

Activity area is free of hazards/debris Activity area is clearly marked

Proper lighting and ventilation, when applicable, are provided

Safety rules/regulations are provided or posted

Instructions for use of facility are posted Emergency exit of indoor facility is clearly marked

Equipment

Equipment to be used is suitable and in good condition

Equipment (bike, brakes, and tire air pressure, etc.) are checked regularly by qualified staff and riders

Bike is correct size for participant

Instructions are given regarding the proper maintenance of equipment

Bicycle repair kit is accessible

First aid kit and phone are available

Clothing/Footwear

Appropriate shoes (cycling or runners) are worn

Laces are tied and open-toed shoes are avoided

Appropriate clothing is worn, permitting unrestricted movement

Jewelry is removed or secured when safety is a concern

Other Considerations

The student has completed a regular medical checkup and a medical history prior to starting the program

The student has submitted the signed Parent Declaration and Consent & Student Declaration Form (student under 18) or Student Declaration Form (student 18 and over) prior to beginning the program

Registration in an accident insurance plan is encouraged

Students who suffer an injury are referred to appropriate medical personnel for treatment and rehabilitation, and should not return to training until cleared by a qualified medical professional

The activity is suitable to the student's age, ability, mental condition, and physical condition

The student demonstrates self-control at all times and avoids any behaviour deemed inappropriate

The student's choice of this activity as part of the OUT-of-class component of the physical education/health education course has been presented to the parent/guardian (student under 18 years of age) and to the teacher
