

WISDOM

We are faced with choices all the time in our lives. We use wisdom to differentiate between right and wrong and then, to make the right choice. Knowledge is only as good as how we choose to apply it. Further, we have all our own skills and talents. When we use them to help ourselves and each other, then we demonstrate wisdom.

The Beaver represents wisdom because beavers use the gifts and skills they have to help each other and their family unit. They also help to control the habitats they live in, both on land and water, through the use of these skills. We should all be proud of our gifts and use them in our lives.
