

Dear Students and Parents,

Here is a list of any extra work students can do in addition to the activities listed on the schedule.

Extra Work:

- Spelling City (Logins/Passwords provided)
- Perplexers Book (Logic Puzzle Book)
- Drawing Colouring Duotang

All student logins and passwords are attached on the inside of their yellow notebook.

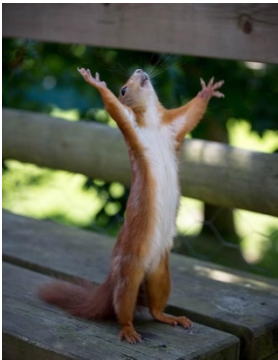

If you have any questions or would like clarification on what your child is supposed to do, please do not hesitate to contact me at sfaye@wsd1.org

Writing Menu

Write an **informational book about the Coronavirus.**

Make sure to follow the criteria for an informational book.
(Include a title page, table of contents, subtopics,
conclusion, pictures, glossary)

You may choose to do this writing in the notebook provided OR you can use the use a device to access the Winnipeg School Division One Drive and save your work online!

If you work online, please make sure to "Share" with Ms. Faye. (When in your document, click on "share" and type "Shawne Faye"). This will allow me to coach and guide your focus!

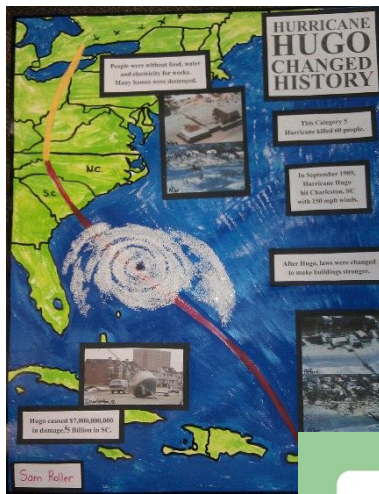

Inquiry

Choose topic that interests you (ex. an animal, a specific person, event in history, etc). This topic can be anything! Your job is to independently research your topic, and create a poster, powerpoint, diorama, or speech to teach others! You will present this project to your class upon your return!

Criteria:

I can...

- Research my topic using books and the internet
- Use my notebook to record my thoughts, questions, information collected
- Create a powerpoint/poster/speech/diorama that sums up all my important information
- Practice presenting/speaking about my project to my family

Characteristics

- Some viruses are enclosed in a protective envelope
- Some viruses may have spikes to help attach to the host cell
- **Most viruses infect only SPECIFIC host cells**
