The Manitoba Arts Council and  
the students of Lord Selkirk School**

# The Five Senses

Room 4 & 8, Grades 1 & 2

Chorus...

At school we learn about our five senses  
We learn to understand what we can do  
At school we read about the five senses  
That protects me and you.

1)

You can smell fresh baked pies  
Hmmm...that would be a surprise  
Hear noises, crash, bang, boom  
When you come to our classroom.

2)

Feel cuddly soft warm stuffies  
Listen to our Daddies and Mommies  
Touching all the shapes  
And decorating cup cakes.

Chorus...

3)

Feel the cold and heat  
From your head to your feet  
Sunglasses for your eyes  
Under sunny Manitoba skies.

4)

Clothes for your skin  
For your own protection  
Winter boots and ski pants  
Let's do our 5 senses dance.(sight, hearing, taste, touch & smell)

# Canada

Room 15, Grade 2

Chorus...

Canada is our world (for all boys and girls)

Canada is our country (a great big community)

Canada is our home (where we are not alone)

Where we live with family. (Canada is you and me)

Canada...Canada...Canada.

1)

Where we play hockey

Skate On the ice

When we score goals

It's real nice

2)

Where we play soccer

And play defense

In a big grassy field

With friends to play against.

Chorus...

3)

Canada has friendly people

Helping each other out

Sharing meals, and friendships

Makes you want to shout. (Yay! Canada)

4)

Canada has many rivers

Lakes and trees

Wild animals everywhere

Mountains and prairies.

# Community

Room 3, Grade 1, 2 and 3

Chorus...

You and me, Community!

123, Community!

1) A community is

Where people live

From all different races.

Where people play

At parks and schools

In all different places.

Cars, roads and bridges

Stores and restaurants

All the animals, trees

As many as you want

2) A community is

Where people work

And build their lives and homes

Where mother nature

Smiles and says

In community you are not alone.

Hospitals and hotels

All those shopping malls

Red and green lights

Looking after us all

3) A community is

Friends and family

Who like to come together

A community is

Friendly people

No matter what the weather.

# Canada Our Home

Room 36, Grade 3 & 4

Chorus...

Canada is our country  
A place where people live  
A great land of freedom  
Where people like to give.

Canada is our motherland  
A land of winter and snow  
Canada is our home  
Where we can learn and grow. (2x)  
(Canada (3x) Our home!) (last time)  
1)

There are great lakes  
And tall mountains  
Many rivers and streams  
Wild animals  
Caribou and moose  
And many hockey teams.

Chorus...

2)  
People in the arctic  
Farm in the country  
Or work in large cities.  
We are Canadians  
From all over the world  
Right here on the prairies.

Chorus...

# Friendship

Room 40, Grade 3 & 4

Chorus...

A friend is someone  
A person who cares  
Best friends are everywhere!  
A friend is someone  
To watch your back  
Someone to look after you (2x)

1) A friend is someone  
Who likes to help  
When you're stuck figuring things out.  
At school with math  
Or playing at home  
Helping you is what it's about  
Chorus...

2) Friends play stomp  
Tag in the park  
And have sleepovers  
They like to sing and dance  
In the music room  
Friends are like four leaf clovers.  
Chorus...

3) Friends take care of each  
other  
When they get sick  
Come over for a visit  
Watch movies together  
Eat popcorn drink juice  
And tell their secrets.

# What is a Family

Room 33, Grade 5

Chorus...

What is a family

People who care about each other

What is a family

Sister, Brother, Father and Mother.

That is a family (3X)

1)

A group of people

Maybe unrelated

Like our classroom at school.

Where we learn to accept

Forgive and have fun

Our class is so cool!

Chorus...

2)

We have a lot in common

But we are all unique

Different in our own way

Special personalities

That we respect

We try to understand each day.

Chorus...

# The Future

Room 28, Grade 5 & 6

Chorus...

The future is  
Something that will happen  
Ahead in time.

The future is tomorrow  
Or the next day  
The future is yours and mine.

1)

We are always... in the present  
And don't know what will be  
We can always... find the past  
In our memory!

Chorus...

2)

The future is... everyone  
We are all connected  
What goes around... comes around  
We are all selected.

Chorus...

3)

The future is just waiting  
As you will see  
So live for the moment  
patiently.

# Space

Room 27, Grade 6

Chorus...Space...(3x)

1)

Space is so pretty  
It's the final frontier  
Where science teaches us  
How we might've got here.  
Space is darkness and light  
Without oxygen so dangerous  
And no life forms  
That is so strange to us.

Chorus...

2)

How small we are  
Compared to the stars  
On this blue planet  
We call ours.  
Are there other planets  
With water and air  
We really don't know  
What's out there!

3)

We orbit the sun  
That gives us heat and light  
One side of earth is day  
The other is night.  
Will we know the universe  
If aliens are real  
If black holes exist  
Will they be revealed.

# Lord Selkirk School Song

Grade 4, 5 and 6 students

We've been the Cougars since 1974  
There's history in the mural, when you look there's so much more  
We've seen many changes looking through the years  
It's made us who we are and the future is here

Lord Selkirk School is where learning is fun  
Lord Selkirk School is a great place for everyone

Reading, math, writing and always being green  
Our friends and our community help to reach our dreams  
We show respect, courage and humility  
Wisdom, love, truth and responsibility

Lord Selkirk School is where learning is fun  
Lord Selkirk School is a great place for everyone

Special Thanks to songwriter Julie Kryk  
for helping us to write this song.
