Committee members were informed that at a meeting held June 6, 2016, the Board approved revisions to Policy JFCBA – Responsible Use of Technology and Social Media which provides opportunities for students to create a Facebook account for school related activities.

5. STUDENT SUSTAINABILITY DEVELOPMENT

Rob Riel, Director of Aboriginal Education and Newcomer Services informed the Committee members that at a meeting held June 6, 2016, the Board of trustees approved a motion to determine the feasibility of the Winnipeg School Division hosting a Student Sustainability Development Conference.

A copy of the feedback will also be provided to the Committee at the next meeting.

6. 2017/2018 BUDGET DEVELOPMENT

Trustee Freedman provided Committee members with an overview of the 2017/2018 Draft Budget. Committee members were informed that the Board developed the Budget in support of Winnipeg School Division Strategic Plan.

Committee members were informed that the Budget was developed on the following Strategic Priorities: providing a robust and comprehensive education for students; improving learning outcomes; addressing barriers to learning; retaining and attracting valued staff; communicating and partnering with our communities; strengthening and enhancing sustainable development and managing tax dollars responsibly.

Committee members received an overview on the 2016/2017 Budget expenditures which totaled \$396 million.

Committee members reviewed the current Budget under the following categories: regular instruction, student support services, community education and services, instructional and support services, administration, student transportation, operations and maintenance and fiscal and capital expenditures.

Committee members were informed that the two major sources of funding are the Province of Manitoba and the property tax levy. In the most recent budget, provincial funding provided only 62% of the total revenue required to balance the WSD budget. The second major source of funding is from property taxation which provided an additional 36% of the total revenue. The remaining 2% is revenue from other sources such as the federal government, First Nations authorities and other school divisions who use WSD resources.

Education is service based and the majority of the annual budget, or 81%, goes directly to the cost of providing instruction and supports in the classroom. Another 19% covers costs such as student transportation, building maintenance and operations, business administration and support services related to research, planning and technology.
