# PHYSICAL ACTIVITY SAFETY CHECKLISTS

ΤΑΕ	Во
-----	----

Tae bo is an aerobic exercise routine developed by taekwondo practitioner Billy Blanks in 1989. It combines music with elements from his taekwondo and boxing training to form an intense workout regimen.

**Risk Factor Rating** 

2

#### General Learning Outcome

The student will demonstrate safe and responsible behaviours to manage risks and prevent injuries in physical activity participation and for daily living.

#### **Risk Management Strategies**

Safety information and recommendations contained in this safety checklist are believed to reflect best practice to reduce risk. The suggested risk management strategies are considered minimum standards for physical activity in an organized or formal setting. They may not apply to all situations (e.g., home-based, recreational, or modified activities), and more stringent safety standards may be applied by instructors/coaches/program leaders of OUT-of-class physical activities in organized programs.

#### Instruction

**Note:** The amount and level of instruction/directions required by the student may vary based on circumstances such as the student's personal experience, skill level, and physical condition. The use of media resources, such as books and instructional videos, may replace direct instruction if deemed appropriate and safe.

Instruction is received from an instructor certified by the Manitoba Fitness Council, a certified Tae Bo instructor or from an experienced instructor capable of demonstrating competencies of a certified instructor, as is appropriate, depending on various factors such as level of risk, intensity, accessibility, experience, and skill

All sessions are conducted in a safe environment, with students aware of potential risks of tae bo and aerobic activities with specific reference to certain exercises which might constitute part of the program

Safety rules are learned prior to participation

Skills/movements are learned in proper progression

Each session is conducted with an appropriate warm-up and cool-down

Drinking water is available and consumed as needed

Program adheres to basic fitness and training principles

#### Supervision

**Note:** The level of supervision is provided as is appropriate, depending on various factors such as level of risk, intensity, accessibility, experience, and skill.

Recommended level of supervision: **on-site supervision** during initial instruction Safety rules and procedures are enforced Emergency action plan is in place to deal with accidents/injuries

### PHYSICAL ACTIVITY SAFETY CHECKLISTS

## ΤΑΕ ΒΟ

#### Facility

Activity area is free of hazards/debris Activity area is clearly marked Proper lighting and ventilation, when applicable, are provided Safety rules/regulations are provided or posted Instructions for use of facility are posted Emergency exit is clearly marked

Equipment	Clothing/Footwear
Equipment to be used is suitable and in good condition	Appropriate and properly fitted footwear is worn
Equipment used is regularly checked by a qualified person	Laces are tied and open-toed shoes are avoided
Instructions are given regarding the proper maintenance/storage of equipment	Jewelry is removed or secured when safety is a concern
First aid kit and phone are available	Appropriate clothing is worn (e.g., aerobics wear) providing unrestricted movement

#### Other Considerations

The student has completed a regular medical checkup and a medical history prior to starting the program

The student should have completed a Registration/Informed Consent Form prior to beginning the program

Registration in an accident insurance plan is encouraged

Students who suffer an injury are referred to appropriate medical personnel for treatment and rehabilitation, and should not return to training until cleared by a qualified medical professional The activity is suitable to the student's age, ability, mental condition, and physical condition

The student demonstrates self-control at all times and avoids any behaviour deemed inappropriate The student's choice of this activity as part of the OUT-of-class component of the physical education/health education course has been presented to the parent/guardian (student under 18 years of age) and to the teacher
