

WHY I LOVE CHURCHILL!!!

My first contact with Churchill happened in May of 2011. At that time I had just arrived to Winnipeg, everything was new and I was looking for any opportunity. Meanwhile, I was in a different high school and we had a soccer match against Churchill High School. As I had arrived to the game field, I was walking down the hill and looking at the school building. Even

though we lost the game that day, I didn't feel bad about it because I had a good feeling about finding a place that comforts me. Later on, in the summer of 2011 I heard other interesting stories about Churchill that interested me to switch schools. I convinced my family and dragged them to Churchill. That is one of the moments that I will never regret. Since my family had moved to Winnipeg, we were facing many unexpected events. One of the most exciting experiences I had happened at the Churchill High School.

I came to Churchill with an open mind and Churchill staff and students gave me opportunities to express my feelings and abilities. Churchill High School helped me to develop new experiences in respect to education and personal. I love Churchill because the relationship between staff and

students is very special and unique. Churchill's pride and tradition is very strong that bonds all of the students together.

Churchill gave me the opportunity to get involved in various athletic, spiritual and traditional school activities and events such as football and soccer, anti-bullying,

Culturama, gym riot, talent show, mini Olympics and much more. I was honored to become the Valedictorian candidate and Governor General recipient and I believe none of these achievements would be possible if I didn't have such strong support from staff and students. Being a Churchill High School Bulldog was an adventure journey for me and I love it.

I had the chance to develop my English skills through the EAL program, and participate in choir which took us to the Winnipeg School Division Honour Choir. The most important reason that I love Churchill High School is the encouragement towards the students to participate and have a role in the community. The Leadership Program was lots of fun and interesting. The greatest advantage of Churchill would be

the small class sizes which gave me the opportunity to make many friends over a very short period of time and get in touch with the friendly teachers. The staff was so helpful in helping me pursue my social and educational goals as a new immigrant in high school.
