## AEROBICS—Water/Aqua

Water/aqua aerobics is a form of aerobic exercise performed in shallow water such as in a swimming pool.

Risk Factor Rating 4

## General Learning Outcome

The student will demonstrate safe and responsible behaviours to manage risks and prevent injuries in physical activity participation and for daily living.

## Risk Management Strategies

Safety information and recommendations contained in this safety checklist are believed to reflect best practice to reduce risk. The suggested risk management strategies are considered minimum standards for physical activity in an organized or formal setting. They may not apply to all situations (e.g., home-based, recreational, or modified activities), and more stringent safety standards may be applied by instructors/coaches/program leaders of OUT-ofclass physical activities in organized programs.

## Instruction

Note: The amount and level of instruction/directions required by the student may vary based on circumstances such as the student's personal experience, skill level, and physical condition. The use of media resources, such as books and instructional videos, may replace direct instruction if deemed appropriate and safe.
$\square$ Instruction is received from an instructor certified by the Manitoba Fitness Council or from an experienced instructor capable of demonstrating competencies of a certified instructor, as is appropriate, depending on various factors such as level of risk, intensity, accessibility, experience, and skill
$\square$ All sessions are conducted in a safe environment, with students aware of potential risks involved in water/aqua aerobics with specific reference to certain exercises that might constitute part of the program
$\square$ Safety rules are learned prior to participation
$\square$ Skills/movements are learned in proper progression
$\square$ Instructor is in control of class at all times
$\square$ Distress levels of class members are monitored
$\square$ Each session is conducted with an appropriate warm-up and cool-down
$\square$ Drinking water is available and consumed as needed
$\square$ Program adheres to basic fitness and training principles

## Supervision

Note: The level of supervision is provided as is appropriate, depending on various factors such as level of risk, intensity, accessibility, experience, and skill.
$\square$ Recommended level of supervision: constant visual supervision
$\square$ Safety rules and procedures are enforced
$\square$ Emergency action plan is in place to deal with accidents/injuries

## Physical Activity Safety Checklists

## AEROBICS—WATER/AQUA

## Facility

Adequate space is provided in which students may participate in chest-deep water$\square$ The water temperature is at an appropriate level
$\square$ Pool deck is free of obstacles
$\square$ Proper lighting and ventilation, when applicable, are provided
$\square$ Safety rules/regulations are posted
$\square$ Instructions for use of facility are posted
$\square$ Emergency exit of indoor facility is clearly marked

## Equipment

Equipment to be used is suitable and in good conditionEquipment is checked by a qualified person before every session
$\square$ Instructions are given regarding the proper maintenance/storage of equipment
$\square$ First aid kit and phone are available

## Clothing/Footwear

$\square$ An appropriate bathing suit is worn

## Other Considerations

$\square$ The student has completed a regular medical checkup and a medical history prior to starting the program
$\square$ The student has submitted the signed Parent Declaration and Consent \& Student Declaration Form (student under 18) or Student Declaration Form (student 18 and over) prior to beginning the programRegistration in an accident insurance plan is encouraged
$\square$ Students who suffer an injury are referred to appropriate medical personnel for treatment and rehabilitation, and should not return to training until cleared by a qualified medical professionalThe activity is suitable to the student's age, ability, mental condition, and physical conditionThe student demonstrates self-control at all times and avoids any behaviour deemed inappropriate
$\square$ The student's choice of this activity as part of the OUT-of-class component of the physical education/health education course has been presented to the parent/guardian (student under 18 years of age) and to the teacher
