It is important that the student is involved in this process. Please avoid simply doing it on their behalf. They should reflect on which courses they need and want.

If you have any concerns at all during the registration process, **DO NOT FINALIZE YOUR REGISTRATION**. Guidance counsellors will be available to address any concerns and assist in the completion of this process. They can print the required paperwork for you, and send it home with the student for your signature. No application will be accepted until it has been signed by the student and parent or guardian. Space is limited for some courses, so it is imperative that all applications are received no later than **March 5th**. Please see the website links above for more information.

Application Deadline – March 5th
