

Grade 8 Outdoor Education

Ms. C. Burns *cburns@wsd1.org*
Mr. S. Reimer *shreimer@wsd1.org*

Welcome to General Wolfe's newest course! In this course you will have opportunities to explore and experience different activities connected to the outdoors. Students will learn to engage with nature for the purpose of play, appreciation and survival.

The year will follow these units, with subject to change:

September	October	November	December	January
Exploring our community	Trees	Indigenous art and the outdoors	Microbits /coding	Microbits/Winter activities
February	March	April	May	June
Winter activities	Planning a camping trip	Shelter building	Water	Summer activities

Assessment for this course will be based primarily on participation and reflection.

Be prepared to spend time outside during the school days that you have Outdoor Education, this includes winter! That means warm winter clothes and appropriate rain gear or layers.
