# Medicine Wheel Inquiry Month

In April, the school will focus on holistic and balanced well-being through a month-long project titled Medicine Wheel Inquiry Month. The Medicine Wheel symbolizes achieving wellness and balance within oneself. Each week we will explore a different aspect of wellness :

- **Emotional Wellness:** fostering positive feelings, emotional understanding, resilience, and coping skills.
- **Spiritual Wellness:** recognizing the ecosystem's role in well-being through gratitude for land, animals, ancestors, and community, and engaging in passion-igniting practices.
- **Intellectual Wellness:** realizing our learning strengths, valuing diverse strengths within a group, and the importance of intergenerational knowledge transfer.
- **Physical Wellness:** promoting well-being through exercise, endurance, flexibility, and self-care (sleep, nutrition, check-ups).

Classrooms will participate in activities, including guest presentations, lessons, activities, and read-alouds, to understand each aspect of wellness. Students will work towards understanding the balanced nature of the Medicine Wheel.

Wellness education will continue through May, June, and the following school year, integrating these principles into all learning areas.
