Graphic Design

The Graphic Design Program is designed for Students who have an artistic talent, enjoy working with computers and other new media technologies, and would like to explore a career in Graphic Design or related fields such as video production, animation, and web design.

Course Outline

Students will study the following areas:

- Design composition and layout
- Corporate identity and branding
- Typography
- Drawing and illustration
- Motion graphics
- Animation
- Portfolio creation
- Employability skills

Design skills are developed through course work in graphic design theory and practical application. Graphic Design students are exposed to many aspects of visual communication such as print and digital design/layout, digital image editing and manipulation, illustration, and motion graphics.

“The Best Way to Predict The Future is to Create it!”
