HEALTH CARE AIDE
R. B. Russell Vocational
High School

**HEALTH CARE
AIDE**

*10-month Pre-Industry
Training program (P.I.T)*

Health Care Aide Program

This is a *ten-month, full-time* program (September-June) that prepares students to work as health care aides in hospitals, long term care facilities and is a recognized training program by the Winnipeg Regional Health Authority (WHRA) & Shared Health.

“Like education, healthcare also needs to be given importance”

Students will study:

- The structure and function of the human body
- Common diseases and conditions
- Infection control
- Medical Language
- Enhancing knowledge of client well-being
- Developing practical skills in preparation for practicum

Approx. 460 hours will be spent in the clinical setting, gaining experience by working alongside other health care aides and functioning as a part of the health care team in hospitals and personal care homes.

Upon successful completion

Students will be certified health care aides and get employment in hospitals, personal care homes and within the community.

The employment prospects are excellent, and there are a variety of full-time, part-time and casual positions available in numerous settings.
