

Kym Soke
ksoke@wsd1.org

My name is Kym Soke, and I love being a teacher.

This school year I want to learn about my new school community at Weston School. I want the students in my classroom to have opportunities to learn about our natural world through their senses, express themselves creatively, and grow in reading and math through daily activities and routines.

I can't wait to get started this year! If you are able, please have a pair of shoes to leave in the classroom, I'd like to spend as much time as we can outside exploring, learning, and playing outside, learning about our natural world.

I became a teacher after finding my passion for education as an EA with the Winnipeg School Division for 8 years.

I believe that learning can and should be fun.

I have 2 dogs and a beautiful wife who is also an educator.

I always strive to help my students feel that they are important and belong in our school community.

I have been volunteering at a downtown boxing club for a decade where I coach and assist in training.

As a coach I've learned that everyone needs individual attention to help them reach their goals. I will work to take this approach to our classroom to help our students grow.
