

Social Studies

Our big picture topics are **"Me"**
"The People Around Me" and
"The World Around Me"

Our School is in Treaty One Territory and we will explore how the treaties shape who we are today. We are all treaty people! In January I look forward to our Super Hero unit. During this time we will explore all things superhero and learn about some of our community super heroes nurses, doctors, firefighters, scientists etc.

Science

Colour
Trees
Paper
Squirrels
Dinosaurs
Snow
Rain
Clouds
Bees
Water

We will also explore the personal interests of students. Have Ideas, or requests? Talk to Mrs Welty!

Everybody belongs and **curiosity is celebrated** in Room 113. It is **play-based, inquiry driven** classroom where students are **encouraged to express their creativity** as they **build communication and problem-solving skills.**

About Ms Welty

I am very excited to be back at Prairie Rose School. I believe kids learn best while they are playing and I work very hard to create a safe and inspiring learning environment. When I am not at Prairie Rose I am most definitely with my husband, four kids or my dog. I enjoy hiking, biking and reading a good book by water or in my flower garden.

Prairie Rose School

English Language Arts

- Hearing, telling and retelling stories.
- Listen to the ideas and opinions of others and respond
- Make decisions during our morning surveys
- Share their opinions with others (one on one and in whole group)
- Form letters/words with accurate formation and placement to ensure legibility
- Work through differences in kind ways and can compromise, change perspective or resist points of view and opinions.

Rhyme and rhythm games are central to our class. Research shows that strong phonemic awareness (understanding the smaller sounds that make up a word) is one of the best predictors for success in learning to read. There will be many opportunities to playfully support these skills.

Math

- Counting to 30
- Counting and comparing quantities to 10
- Counting backwards from 10
- Identify “one more” or “one less”
- Identifying & Creating patterns
- Creating 3D objects with clay

GREAT MATH GAMES FOR AT HOME

Uno
Dominoes
Chutes & Ladders
Spot It
Tenzies
Yahtzi
Go Fish

Make Math Fun!

Some of us grew up being afraid of math but that doesn't mean our kids need to be afraid. Look for ways to make math fun and keep in mind your N/K child is at the beginning of what we hope will be a lifelong love of math!

Social Emotional Learning

- Be Kind
- Move from one activity to another
- Ask for help
- Cope with Frustration
- Make Friends
- Say “No” when a boundary is needed
- Express Opinions
- Solve Conflict

Movement & Art

Students will go to gym once a cycle (on Day 2) for 35 minutes. We also keep things moving in our N/K room! There will be dancing, jumping, stretching, and time outside.
