

GRANT PARK HIGH SCHOOL INTERNET ACCEPTABLE-USE POLICY

The Internet, an electronic highway, connects thousands of computers, computer networks and individual subscribers around the world. Internet users must sign the "Internet Agreement" at the time of registration prior to being given access to the school's Internet connection. This Policy will define the educational objectives and guidelines for use as well as unacceptable uses, which will lead to revocation of access privileges.

Users (and parents of users under 18 years of age) must understand that Grant Park High School cannot control the content of the information available. Some of the information is controversial and sometimes offensive. However, the valuable information and interaction accessible on this world-wide network outweigh the possibility that users may find inappropriate material. Grant Park High School does not condone the use of such materials and will not tolerate students accessing them. School employees, students, and parents must be aware that access to the Internet will be withdrawn from users who do not respect the rights of others or who do not follow the rules and regulations established by Grant Park High School.
