Grade 3 and 4: A Delightful December

Students in Grade 3 and 4 had a delightful December! Throughout the month students used their math and design skills to build bridges, create Marble Runs and construct Gingerbread Houses. Students learned about Christmas and Winter Celebrations Around the World. Baking gingerbread with Reading Buddies and trying out new books at a "Book Tasting" were fun ways to celebrate and engage with literacy learning. December was delightful!

"we had to use our imagination and creativity to build a bridge"
~Shaneen Sayer

"we used triangles to build the bridge because they are the strongest shape"
