

Dear Parents/Guardians/Caregivers,

As we welcome the vibrant month of May, we're filled with excitement and gratitude for the wonderful opportunities to gather, celebrate, and learn as a school community. The upcoming weeks are full of meaningful events that showcase the incredible talents of our students and the strength of our school-family partnerships.

We are thrilled to invite you to our Mulvey Music Recital on Tuesday, May 7<sup>th</sup> at 4:00 PM, where our talented students will perform piano, recorder, and choir pieces they've worked so hard to prepare.

It will be an afternoon and evening of joy, pride, and inspiration as we celebrate the creativity and dedication of our young musicians.

Also on May 7<sup>th</sup> at 4:00 PM, we are also honoured to host our Volunteer Appreciation Event. Mulvey School is incredibly fortunate to have such a generous and dedicated group of volunteers who give their time and energy to support our students, classrooms, and programs. Whether helping with field trips, classroom activities, school events, or simply lending a hand when needed — your contributions make a lasting difference. We are truly grateful and look forward to celebrating you and all that you do for our school.

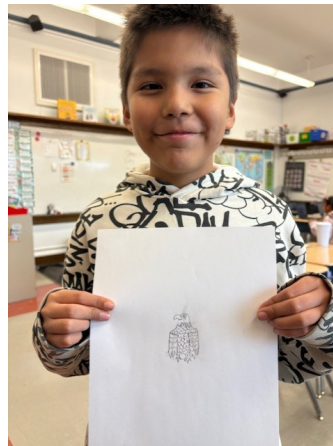

Looking ahead, we're excited to host our "Read and Fly" Literacy Event on Tuesday, May 14<sup>th</sup> at 5:30 PM. This is a family-friendly evening filled with fun and engaging literature stations set up throughout the school. It's a wonderful way to celebrate literacy, foster a love of reading, and build connections within our learning community.

And on Tuesday, May 21<sup>st</sup>, we will be gathering for our annual rooftop photo — a special tradition that captures the spirit of togetherness among our students and staff.

Thank you for your continued support and partnership. We are so proud of all the learning and growth happening at Mulvey and are looking forward to sharing many special moments with you throughout the month.

With gratitude,

*Mr. P. Correia, Principal*

# Mulvey Moments

## WSD Land Acknowledgment and Commitment to Action

"The students, staff, and communities of Winnipeg School Division are committed to truth and reconciliation through building relationships with Mother Earth, the original peoples of this land, and the stories that bring us together. We acknowledge the place in which we gather is on Treaty 1 territory, the homeland of the Red River Metis, and the ancestral lands of the Anishinaabe, Ininiwak and Dakota Oyate peoples."

# Acts of Recognition (AoRs)

Acts of Recognition are given to students for achieving personal, academic, or social goals. We use the Seven Teachings to help students name their goals. This may be when a student goes beyond regular expectations or continually demonstrates skills and/or behaviours that contribute to making Mulvey School S.A.F.E.

**The following 112 students received Acts of Recognition stickers in the month of April**

Some students were nominated for more than one act, but have been counted once.

We are happy to accept Acts of Recognition from home and the community. If you would like to nominate your child, or any student parent, community member, please email Mr. Correia

([pcorreia@wsd1.org](mailto:pcorreia@wsd1.org)) or Ms. North ([nnorth@wsd1.org](mailto:nnorth@wsd1.org))

# NEWS FROM THE CLASSROOM

## Grades 3 & 4 Mr. K. Storey

April has been a busy month, just like all our previous months. Spring break stretched into the first week of April, so it felt like we were coming back to school later than usual. The students did a great job of remembering their math

lessons from before spring break. We have continued on with our study of fractions, and now we have expanded into decimals and percentages. This is a difficult math concept for kids to work with, and I am proud of how well many of our students have picked up how fractions work.

In our second week back in April, our class headed to the Zoo for our spring field trip. We were accompanied by a Zoo Guide who showed the students all sorts of animal adaptations. We ended our morning with a classroom session where the students got to handle seal skin, a polar bear claw, and a polar bear skull replica. We got to see a lot of animals. Best of all, we got to see the polar bears playing in the tunnels. This was an excellent demonstration of the power of these magnificent animals.

With writing, we are working on our how-to stories.

Students have picked a topic they are familiar with and have written a detailed step-by-step description of how to do that thing. Draft copies are mostly done, and in May these stories will be posted on our bulletin board.

## Nursery & Kindergarten Mrs. N. Schneider

This month the students have been studying about diversity. We discussed the uniqueness of each other. The students made a beautiful mural to represent their understanding about the importance of respecting other

cultures and belongingness in the community. The students have been showing an interest in learning about butterflies. This discussion has now lead to what they know about butterflies, as well as what the students want to know and wonder about butterflies. The children have been very busy identifying and sequencing the lifecycle of a butterfly. In addition to all of their learning about butterflies, the students will also be creating watercolor butterflies while learning about symmetry. Our Nursery and Kindergarten journey continues as we continue learning about Spring. The students have been investigating the different signs of spring. The students will be estimating, counting, sorting, and patterning different varieties of seeds, as well as planting and measuring the growth of their own individual plants. To celebrate Earth Week, students made an art project based on the earth and a promise to the earth. The students brainstormed ways to make the earth a better place for people and other living things. The students created a beautiful mural showing how they can respect the earth, which will be displayed in the hallway. Our Nursery and Kindergarten journey continues. I enjoy watching the progress that each and every child has made this term. Thank you for your continued support!

## Grades 1 - 6 - Ms. L. Costello

The students are getting excited that spring has arrived early. They have been busy making spring crafts to celebrate. We are using various items to create the art in our room including, shaving cream and food colouring, baking cups, paper mâché and salad spinners with paint. The students are loving the warmer weather and extra time outside.

# NEWS FROM THE CLASSROOM

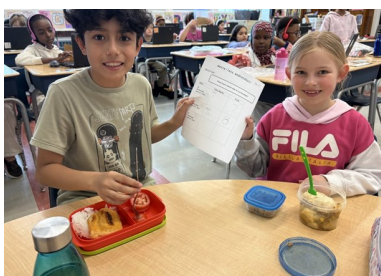

## Grades 1 & 2 Ms. A. Cruzada

April was indeed a very busy month! We had a month filled with Spring Bus Ridership where students learn to be safe by following school bus safety rules. We were visited by the Earth Rangers with some of their animals. It is a charity that transforms children's concerns about our environment. They encourage students to become environmental leaders at home, in school and in the community. Then last April 10, we had a fieldtrip at the Children's Museum where students creative learning and imagination were ignited once again. Students had so much fun while learning. The museum provides an interactive learning environment that nurtures their power of imagination and spirit of self-discovery. Furthermore, on April 13, we celebrated the International Day of Pink by wearing our pink shirts that symbolize our commitment to diversity and inclusion by combatting all forms of discrimination. Lastly, our academic learning journey continues to "bloom" this spring season we had additional learning from Ms. Chantal, our ECE student in training. She gave us an informative lesson about oral hygiene. Students were really engaged! Kudos! We are extremely glad to have you in our class.

## Grades 3 & 4 Mrs. A. Luka

April has passed by quickly and we are now anxiously awaiting the beautiful weather! We had a wonderful field trip to the Zoo learning all about polar bears! We have been working on multiplication and measurement and how they can apply their skills to real-life situations while continuously learning and practicing our mental math strategies. We have been investigating the length, width and height of different items around our classroom using standard and non-standard measurement tools. The students are also having so much fun exploring forces that attract and repel as well as learning about continents and the world! The students are increasing their writing stamina, focusing on writing topic sentences as well as paragraphs. The month of May will hopefully be full of warm weather and many new, fun-filled learning experiences. With the beautiful weather ahead of us, why not grab a book and read outside!

## Grades 2 & 3 Ms. C. Kamara

The month of April just flew by for our class! With a couple of short weeks in the month, the students worked hard to get everything done that they needed to! In Social Studies, the class started our new unit on Exploring the World. We talked about the Rights and Responsibilities that people have around the World and about all the different places that people in our class live around the world. We discovered that the students and staff in our classroom come from 5 different continents and 12 different countries! Students also did a refresher unit on Telling Time in Math. They practiced how to tell time to the hour, to the half hour and quarter to and quarter after. The class then got to create a cute flower poster that showed and talked about their favourite time of the day.

In April, the class was able to go on a field trip to Assiniboine Park Zoo with Room 1. The class had a great time getting to learn all about the Polar Bears and then going on a tour around the Zoo to see all the different animals.

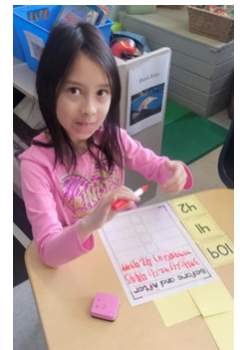

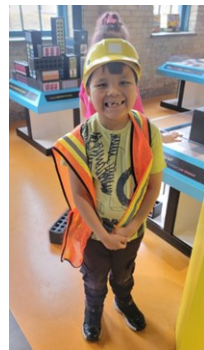

In May, the class will be continuing our Science unit on Materials and Structures, beginning a new unit in Social Studies on Ancient Societies, and beginning a new Unit in Math on Mass, Capacity and Temperature. We had an amazing April, and can't wait to see what May has in store for us!

# NEWS FROM THE CLASSROOM

## Grades 1 & 2 Ms. S. Gomes

What a wonderful learning month! We have begun our Science Inquiry unit all about animals. We have been talking about what animals need to live and survive, and what their habitats look like. Most of our conversations have connected nicely with Earth Day, which was on April 22. We tied the needs of animals to what our part is every day when it comes to taking care of our planet and the animals in it. For Earth Day, we created books about how we can take care of the Earth, and what each one of us can do to make a difference. We had so many things to write about in our Earth Day books. Early April, we were able to go on a field trip to The Children's Museum. The children had an amazing time exploring and playing. We ended our visit with a hands-on activity which allowed everyone to create a car out of recycled materials and then race it down a ramp. It was a very fun and educational experience for everyone! In the classroom, we continue to work on building our numeracy skills. We have been looking closely at place value, subtraction, even and odd numbers and using the symbols for more than, less than and equal to. We have been using hands on materials and games, Mathletics, Mathseeds, and pencil and paper activities to show our learning. We continue to review all our past math concepts and skills as well. Read to Me has been going very well, we are reading and writing so much in our classroom! I am so proud of all the students for working so hard on their reading and writing skills. Way to go!

## Grades 2 & 3 Mr. K. Wiens

In April, we learned about Earth Day and how important it is to keep the earth clean and safe for all. In Math, we continue to build our knowledge of how to break numbers into groups of hundreds, tens, and ones with a new math game as well as starting to look at how to tell time. In science, we are starting to explore growth and changes in animals.

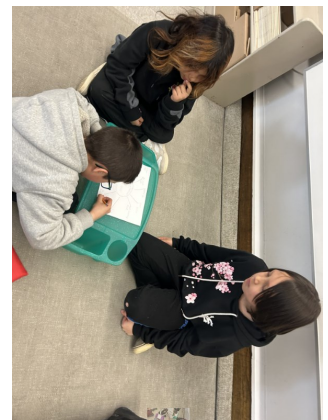

## Grades 4 & 5 Ms. W. Mackenzie

I hope you are all getting out and enjoying the lovely weather!

We are continuing our work on multiplication and fractions in math. We have learned about arrays and equals groups. Please continue to skip-count with your children at home in order to help to build their multiplication skills.

In April, we visited the Winnipeg Zoo and took part in a program called 'All My Relations'. As we toured the zoo, many students were excited to see the polar bears up close and enjoyed spending time with one another. Please continue to have your child read to you each evening. In order to work on their comprehension skills, take a moment to ask your child to retell what they have read. Ask them about what they thought about what they read. This is a great way to have your child think beyond the text and a wonderful way to start a conversation!

# NEWS FROM THE CLASSROOM

## Grades 4 & 5 Mr. S. Macdonell

Spring has finally arrived, and with it has come an exciting and busy month in our classroom! Here's a quick look at what we've been up to in April.

In ELA, we have been exploring different ways to present information—both in writing and through projects. Students have also been working hard on their reading skills and continuing to grow as spellers. It's been great to see their confidence build in all areas of language!

This month in math, we wrapped up our Patterns and Algebra unit and dove into fractions. Students are learning how to identify, compare, and represent fractions in different ways—and so far, they're doing a fantastic job!

In Social Studies, we've been busy researching important Manitobans, both from the past and present. Students showed what they learned by creating posters and slideshow presentations. In Science, we've been exploring sound—

how it's made, how it travels, and how we hear it.

One of the highlights of the month was our trip to the zoo! It was a wonderful opportunity to get outside and engage with our learning in a new environment. The students enjoyed connecting what we've been learning about to real-world examples, making the experience both educational and memorable.

Please encourage your child to read at home each day and to complete their reading logs. Daily reading helps reinforce skills learned in class and fosters a love for reading, making your child a more confident and capable reader. Thank you for your ongoing support!

## Grades 4, 5 & 6 Mr. B. Kussin

It is hard to believe that May is already here and wonderful that the weather is now cooperating! Although there are only a couple of months left in this school year, the students are still learning all they can to prepare themselves for the next leg of their journey.

In Language Arts, we will continue to hone our skills at becoming poets with the goal of creating their own poetry booklets. In Math, the students will continue to expand their understanding of fractions, decimals and percents. We will continue our look at World War II, the Holocaust and begin a novel study or two that will help us understand some of the events during this time period. We will use our understanding of the effect of stereotyping, prejudice and discrimination during this time period to discuss how these issues continue to appear in society today.

Remember, a great way to keep your child interested and motivated in their own learning is to ask them what they have learned at school every day and have conversations

with them about their learning. Perhaps you could ask them to share their understanding of, or explain and demonstrate, one of the important ideas they have recently learned!

## Grades 1 & 2 Mrs. E. Black

Another month has come and gone and hopefully there's no more snow to be seen! How amazing was the talent here at Mulvey? The Talent Show was a big hit, bravo to all of you who put on a performance showing the school your special talent. In our classroom, we are looking forward to having a butterfly chrysalis to observe in Science, since we have been learning all about the many different life cycles of animals and insects. In Mathematics we are continuing to learn attributes of 2D and 3D shapes and are finding shapes in our environment. We enjoyed our field trip to the Children's Museum where we learned all about how wheels and axles work together. We also thoroughly enjoyed our field trip at the Assiniboine Zoo. What an exciting month of learning!

# NEWS FROM THE CLASSROOM

## Nursery & Kindergarten Ms. K. Rosenberg

Spring has finally sprung! I hope everyone is enjoying the warmer weather! During the month of April, we celebrated Earth Day and learned what we can do to help take care of our home. In one of our morning discovery centers, students were able to use their creativity to design art pieces using recycled objects. We even had a day at school where we kept our lights off and used only natural light coming from our beautiful windows to help reduce our use of electricity. We learned that we can all do small things to help take care of our Earth! Our field trip to the Children's Museum was so exciting! Students enjoyed exploring the museum and furthering their learning of trees. It was such a unique experience to learn in a new environment using play and exploration. Speaking of trees, we have been talking about what we see, smell, hear and feel that tells us that spring is here and the season is changing. Later on in the month, we will be doing some planting in our classroom! Students will be estimating, sorting, and counting a variety of seeds, as well as planting and measuring the growth of their own plants. We are also using centers to solidify our past learning. Language centers include a review of all 26 letters of the alphabet, their sounds and reinforces proper letter formation through a variety of alphabet games and activities. We have started to focus on some vowel recognition such as Aa, Ee, and Ii. In math, we have been discussing our "counting on" strategy to help us add two numbers together up to 10. We also continue to review different types of patterns and practice our daily counting skills during calendar time.

Our Show and Tell is off to a fabulous start! Please remember to mark down the date of your child's Show and Tell to be sure we do not miss anyone's special day! While we are on the topic of special days, we will be going on another full day field trip to the Morning Sound Farm on Thursday, May 29<sup>th</sup>. Stay tuned for a detailed note with more information closer to the date. It is hard to believe there are only two months left of this school year. As the weather turns warmer, enjoy spending time outdoors with your family and consider moving your daily reading time outdoors! We look forward to learning, exploring and having a lot of fun as our kindergarten journey continues for the remainder of our 2025 school year!

## Phys. Ed News from Mr. Ambaye

In May, students will continue to develop their personal fitness and functional movement skills through a variety of physical activities, simple games and sports. As the weather warms up, some Physical Education classes will be held outdoors in May and June. Please ensure your child is dressed in comfortable, weather-appropriate clothing.

### **Intramural and Club Activities:**

In May, students are participating in **Before School Open Gym, Flag football tournament and Running Club**. The **43rd Annual "FIT RUN"** takes place on **June 3, 2025, at the Old Exhibition Grounds** (off McPhillips Street between Jarvis and Selkirk Avenue). This FIT RUN (2Km) is open to grades 4 – 6 students who can complete the run in a determined amount of time based on their grade level. More than 900 students are expected to participate in the annual Fit RUN throughout the Division. Please refer to Intramural Calendar for details.

Mr. Ambaye

## Welcome back to Ms. Brenna's Artists Alley!

What a lovely start to spring everyone. I am pleased at how everyone has jumped into their projects with enthusiasm. The grade 1/2 students are starting to look at cultural dances from around the world and selecting which type of dance they would like to learn. The intention is to share our dances with the elderly at Misericordia place in June. The grade 2/3's have finished their English word art and are moving on the using the same shape/word but in a different language. It has been interesting for me to watch you translate these words and this word art process as you re-do the same thing with a twist. I can really see your growth and learning. Room 21 have all finished their habitat contour drawings and students are now working on adding their food chain animals/plants into their art. Room 17 has been working towards making coil patterned clay bowls. Most recently they have been learning how to properly attach pieces of clay together so their bowls will not break in the kiln. I hope you all stay diligent as this part is super important to do right. The grade 4/5's have begun the first few art pieces in their still life perspective series. As they finish each version of the same subject they will get stickers on their punch cards till they have done them all. So far the focus and resulting art has been phenomenal from all of you.

All the grade 5/6's are trying their hand at glass art. Showcased today in this months Artist Alley are the students from room 13 who are finally finishing their stained glass mosaics. They took a long time but the resulting artwork looks spectacular! Meanwhile rooms 16 and 18 have made progress learning how to use the glass cutting tools to safely start their glass layers on their planets/celestial bodies.

I am very happy to see everyone's progress April has been a super productive month for everyone. I want to thank you all for jumping straight into things after the break. Keep up the good work as we enter this final 2 month stretch until the end of the year!

## Welcome to the Music Message Mr. B. Grieve

In April, our Intermediate music learners finished creating their first original compositions using the major pentatonic scale, Orff instruments (xylophone, metallophone, glockenspiel, and piano), and an ABAC song structure. When you are at Mulvey, please see them on the Music bulletin board in the upstairs hallway. Our primary music learners worked together to perform songs using Orff instruments to create music videos. This process involved singing and performing a song together as a class as an ensemble. Rooms 7 and 5 performed their songs for the entire school on Monday, April 21, during our morning assembly, too! Our Kindergarten and Nursery music learners began exploring melodic Orff instruments. At the end of April, our Mulvey music learners all began learning their first wind instrument; the recorder!

Mulvey School is hosting our annual Volunteer Appreciation Piano Recital. Please join us on May 7th at 4 pm and show your support for our incredible volunteers, piano students, recorder ensembles, and school choir. It is sure to be a wonderful, musical evening.

Looking ahead to May and June, students will have the opportunity to transfer their existing musical skills to learn to play the recorder and the ukelele. Students will also experiment with music technology by becoming DJs through the app Incredibox.

Rhythmically yours,

Mr. G.

Friday AM/PM

**Dear Parents, Guardians, Caregivers, and Families,**

With warmer days ahead, we joyfully welcome the arrival of spring and summer! It's wonderful to see the grass turning green, the trees budding, and our community coming alive with outdoor activity once again. This season brings many opportunities to connect, grow, and celebrate together.

**Programs and Activities**

**Circle of Security Program**

A heartfelt thank you to our partners at **All Nations Family Resource Centre & Snowbird Lodge Cultural Centre (ANCR)** for their dedication in delivering the seven-week *Circle of Security* program. This valuable initiative offered parents, guardians, and caregivers insightful tools to strengthen bonds with their children and better understand their emotional needs. We are committed to continuing this strong partnership and look forward to bringing more programs from ANCR to the Mulvey community.

**English Conversation Classes (EAL)**

We are excited to welcome back our **English Conversation Classes**, running every Thursday from **May 8 to June 26**, 2:00 – 3:30 p.m. This session will focus on **Money Matters**, including topics like spending plans, borrowing, and saving. If you're interested in participating, please email me at [jkiwanuka@wsd1.org](mailto:jkiwanuka@wsd1.org) to register. Everyone is welcome!

**Food Rescue Wednesdays**

Every **Wednesday at 8:45 a.m.** we host our weekly **Food Rescue** distribution. Families are encouraged to bring reusable bags for convenience. Updates on what food will be available are posted to our Messenger group every **Tuesday after school**. Thank you for your continued participation!

**Mulvey Clothing Line Event**

A huge thank you to everyone who donated clothing, toys, and household items for our recent **Clothing Line Event**. It was a joy to see families browsing and children excited to “shop”! We're hoping to host another event in **June**, pending time and availability—stay tuned for more information.

**Family Fun Cooking**

Let's continue to explore the world through our kitchens! Our next **Family Fun Cooking** session will take place later this month at **4:00 p.m.** (date to be confirmed). To register, please email [jkiwanuka@wsd1.org](mailto:jkiwanuka@wsd1.org). Come join us for an evening of fun, learning, and delicious food! As always, thank you for being an active part of our Mulvey School community. I look forward to seeing many of you at our upcoming events and programs!

Warm regards,

**Ms. Justine Kiwanuka**

**Mulvey**  
SCHOOL  
LIBRARY

## The Library has been SPRINGing into action!

April has been a busy month as we've had several fun events running in the library. The first was the exciting finale of 2025's MYRCA Book Club with a voting pizza party where we held the big election for our favourite MYRCA book of 2025! Drum roll please...  Mulvey's favourite MYRCA book was:

**THE BELLWOODS GAME**

by Celia Krampien

Now we wait to see which book is voted national MYCA winner! Watch this space!

## U Multicultural Podcast Interview

Mulvey was excited to be invited to participate in a podcast to talk about our library and programming! Several students joined Ms. Sarah Jane to chat about their love of books and how Mulvey's library inspires them to love to read and to visit libraries both at school and in the community.

## NEW LIBRARY BOOKS!

Thanks to the huge success of Mulvey's Scholastic Book Fair, the library has received lots of new books for Mulvey's community to enjoy and learn from. The students have been so excited as they've watched more and more new titles filling the shelves - thank you again for your ongoing support!

## THANK YOU Ms. Cecile!

Our wonderful friend and colleague Ms. Cecile, who recently retired from Mulvey, has kindly made these two amazing book displays for Mulvey's library!! Thank you so much for your amazing artwork and such an amazing gift to the library!

**School-wide student ROOFTOP  
picture day is coming!**

**Mark your calendars for our school  
Picture Day on Wednesday, May 21,  
2025**

**Mulvey School students and staff are gathering all together on the  
school's hardtop area for our annual school community group  
picture on Wednesday, May 21st @ 11:00 AM.**

**If your child is an afternoon student but would like to be included,  
please bring them to the school to be included in the picture.**

**Mulvey School t-shirts will be provided.**

## **PATROL OF THE MONTH:**

### **Tymofii**

**For his exceptional dedication and  
leadership, always being on time,  
consistently reminding fellow students  
of their patrol duties and ensuring  
everything runs smoothly. As Patrol  
Captain, Tymofii takes charge with  
confidence and a positive attitude,  
setting a great example for others.**

RHYTHMIC GYMNASTICS

We are excited to be offering fun, inclusive recreational rhythmic gymnastics programming for the 2024-2025 season!

Starting at age 3, gymnasts in our recreational programs learn the basics of movement and gymnastics. These programs focus on developing fundamental movement patterns and apparatus handling skills, where participants will develop physical literacy and a joy for movement in a welcoming and exciting environment! Introductory classes are offered in 5 week sessions, consisting of one hour-long class per week.

We are offering two locations for Spring 2025:  
TUESDAYS - LUXTON SCHOOL  
THURSDAYS - LAURA SECOND SCHOOL

REGISTRATION IS NOW OPEN - CLASSES START MAY 6!

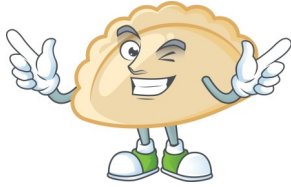

Contact us today for more information!

# Housing and I.D. Resource Event

May 7, 2025, 3:30 to 6:30 p.m.  
École Stanley Knowles School  
2424 King Edward Street

Winnipeg School Division and End Homelessness Winnipeg are hosting events to help our community members get income and housing supports they qualify for.

Join us to receive on-site sign-up services and information on available resources for individuals and families.

To sign up for services you will need some ID such as:

- Manitoba Health Card
- Government Issued Photo ID
- Proof of Income/Option C
- Current Tenancy Agreement
- Direct Deposit/Banking Information
- EIA Budget Letter
- Proof of Status/Residency
- Completed Guarantor Form

If you are unsure of which documents you will need to bring, or if you require assistance in filling out forms please contact:
