Dear Principal Sparling Community

October 11 2024

Our students have taken over to share the events of this week. Students were asked "what was the best part of the week?" Here are some of the responses:

"We played with a million toys."

"My mom packed me purple juice."

"I think learning."

"Getting to play outside."

"We learned sight words."

"Intramurals, I think that would be the best part."

"Probably learning about the different kinds of soils because I love learning new things."

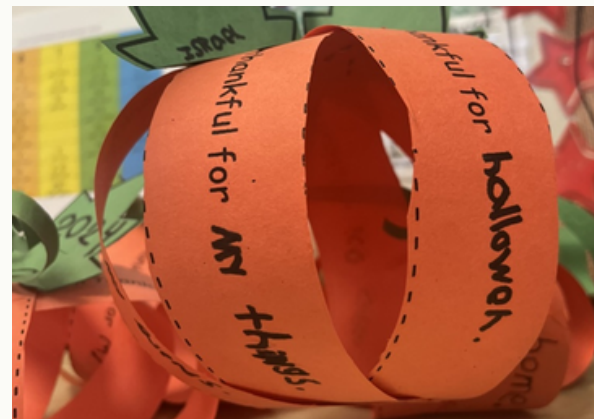

"We smudged."

"I love doing Phys.Ed. I love reading time and I love learning."

"Math. I liked doing the Esti-Mysteries"

We are grateful to have students with different interests who are willing and eager to share their ideas. Enjoy the long weekend and we welcome you back on Tuesday!

Actively yours,
Principal Sparling

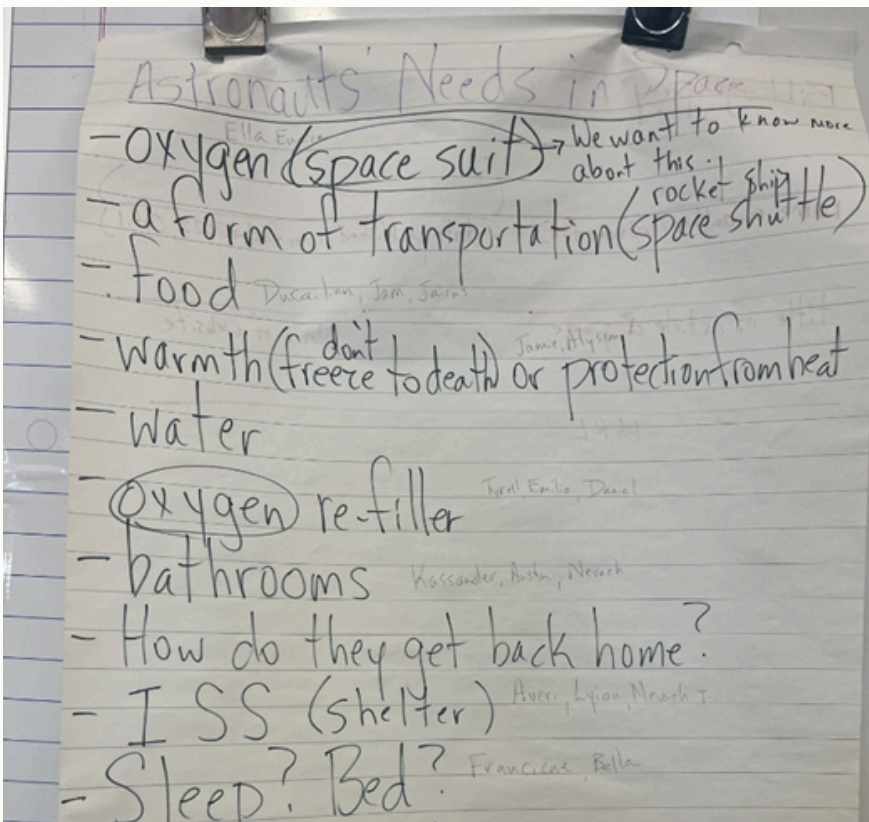

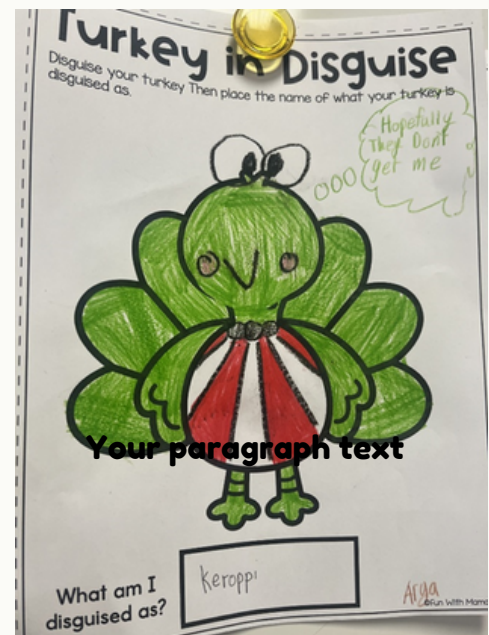

“We did art on Monday and it was very fun. We did oil pastels, and we had to make one side warm colours and the other side cool colours and a tree in the middle. Then we made a story about it.”

“We did a nature project. We found pinecones and turned them into paint brushes.”

“We are learning about space in science. We have come up with questions about space.”

“Today there was a turkey activity and it's super fun and we had to disguise the turkey so it doesn't get eaten.”
