

## **Room 14 Class Outline**

Room 14, the Learning Assistance Centre (LAC), is a divisional low-enrollment program for students who experience challenges in larger classroom settings. Room 14 is staffed by Mr. Bright and Mrs. Hilderman.

Students in the LAC engage in grade level curricular outcomes for academics within the classroom (English, Social Studies, Math, and Science). Students in room 14 join room 15 for music class. Room 14 has Phys-Ed every day.

Students from the LAC are integrated into general education classrooms when it is relevant and appropriate. The goal of the LAC is to have students return to their home school in general education classes.
