

# Meet The Teacher

Salut tout le monde!

My name is Shikha Bhatia, I am really excited to teach nursery/kindergarten this year! This age is full of curiosity, energy, and wonder, and I can't wait to be part of each student's learning journey. There's something magical about watching little minds grow and explore the world around them. We're going to learn through French songs, stories, play, and lots of hands-on fun! I look forward to helping my students develop not only academic skills but also kindness, confidence, and a love of learning.
