

meet your TEACHER

Ms. Manuel

About me

Hello everyone! My name is Keyla Manuel and I'm so excited to be your child's teacher this year! This year, I will be teaching Grades 1 and 2 in room 214. This will be my fourth year teaching and my first year teaching at Champlain School. I am looking forward to an amazing year of fun, curiosity and discoveries!

Favorites

Colour: Yellow

Food: Sushi

Candy: Reese's
Peanut Butter Cups

Subject: Math

Book: The Percy
Jackson & the
Olympians series

Movie: High School
Musical

Hobby: Baking

Fun facts

- In my free time I love to test new recipes. So far, making cheesecake has been my favourite
- I love coffee
- I enjoy going to bookstores and the library to find new books to read

ROOM 214

Ms. Manuel

Hello everyone,

Welcome to the 2026-2027 school at Champlain School! My name is Keyla Manuel and I am looking forward to be working alongside you and your child this school year. This will be my fourth year teaching and my first year teaching at Champlain School. This year Room 214 is a grade 1 and 2 classroom.

In Room 214, we focus on hands-on learning, giving students opportunities to explore new ideas through engaging, interactive activities that make learning fun and meaningful. We strive to create a welcoming classroom environment where curiosity is encouraged, creativity is celebrated, and every child feels supported, valued, and confident in doing their best.

Our Beliefs

In our classroom, it is expected that we demonstrate respect with each other and follow Champlain's three beliefs:

- **We Are Safe**
- **We Are Respectful**
- **We Are Ready to Learn**

Math

Students will be working independently, in small and whole groups while working through activities and playing games with each other to develop their strengths in math. We will continue to develop our math knowledge and understanding in:

- Number Sense
- Patterns and Relations
- Shape and Space
- Measurement
- Statistics and Probability (Data Analysis)
- Problem Solving

ELA

Students will be supported in becoming confident readers, writers, and communicators through engaging, hands-on learning experiences. Students will participate in:

- Whole-group and small-group instruction, including guided reading and writing
- Independent reading and writing practice
- Word study, spelling activities, and games
- Shared reading of books and poems and daily read-alouds
- Discussions that encourage students to share ideas and make connections to stories
- Collaborative, integrated projects that build creativity, communication, and teamwork

ROOM 214

Ms. Manuel

Science and Social Studies

In Science, students will be exploring the following topics: States of Matter, the Roles of Water and Air on Earth, Needs of Organisms and Where they Come From, and Weather and Seasonal Changes. In Social Studies, students will be exploring the following units: Our Local Community, Communities in Canada and the Canadian Community. Our class will learn about these topics through hands-on experiments, inquiry projects and research.

Art

Students will be exploring the elements of art: line, colour, texture, shape, form and space. They will learn safe and appropriate uses of art media, tools and processes. Will explore creativity and making an art piece on their own.

Indigenous Education

Students will learn through Indigenous stories, teachings, activities, and perspectives that connect to their everyday learning across different subjects. They will be supported in developing a deeper understanding of Indigenous knowledge and ways of knowing, while fostering respectful relationships with one another, their families, and the broader community.

Assessment

Students will be assessed through observations, conversations, and participation in classroom activities. Student learning will be documented through work samples, ongoing feedback, and opportunities for students to reflect on their learning.

Contact Information

If you have any questions, you can email me at: kmanuel@wsd1.org or call the school at 204-586-5139.
