

Meet your teacher Mme Schneider

Grade 6
Salle 110

About me

Salut! Je m'appelle Odette Schneider. I have previously taught in the Division Scolaire Franco-Manitobaine in different grades and have taught phys-ed for many years. I have been married for 31 years and have three children. I look forward to meeting your children and having a productive school year with a lot of fun!!

Growth Mindset

I have adopted a growth mindset when it comes to my students and even our own children. We are all special individuals with unique traits, interests and strengths! Success is measured by growth when we are learning new concepts and ideas. I am looking forward to watching the growth that will take place this school year!

Hobbies

I run everyday and enjoy participating in 10K and half marathons with our kids. I love watching our daughters play tennis! I also love to garden and walk our dog Sophie who is an English Springer Spaniel. We love going to the lake!
