

# Is the IB programme a good fit for you?!

## IB programme at Kelvin High School

Grade 10 preparatory year with students taking 6 Grade 10 courses and 4 Grade 11 courses

Grades 11 and 12 students choose 6 IB courses for the IB Diploma; these courses start in Grade 11 and continue into Grade 12

The accelerated nature of the program allows us to teach university content in the Grade 12 year. Students can earn credit for their IB courses at universities worldwide if they do well enough. It is a challenging program for the right reasons. There are many rewards for taking the IB programme.

## Interested Grade 9 students

Kelvin Gr. 9 students You will receive an IB presentation and IB information package in your Grade 9 English or Math class in February.
