

AMVC- Grade 8 SUPPLY LIST

Please note that supplies may need to be replenished throughout the year and additional supplies may be required (i.e. poster paper, plasticine, tri-fold display boards, etc.) for a specific project or assignment

As we transition back to school during COVID and our new normal, please note that it is very important your child be responsible for their own supplies while at school. Teachers will be limiting the supplies they provide to students and sharing of supplies among peers will be discouraged.

If your family is not in a position to purchase school supplies, please contact the school and we can make arrangements for your child.
