Battery Blitz School Mission

Did you know when you recycle your used batteries in the Recycle Your Batteries, Canada! collection boxes at your school, you are helping protect animals?

Batteries that go out with the trash end up in landfills, adding to solid waste that can be harmful to the environment.

Bring in your used batteries and help protect the animals you love! Your school could win an amazing cash prize!

RECYCLE YOUR BATTERIES CANADA!
powered by call 3 recycle

Thanks room 1 for spreading the love with these beautiful suncatchers!

Registrations for School Year 2024 2025

We are now accepting registrations for all grades for September 2024 2025!

If you are a resident of the Winnipeg School Division:

***NURSERY (CHILD BORN IN 2020) or KINDERGARTEN PROGRAM (CHILD BORN IN 2019):** There is no fee if you live within the division. There are several forms that you will need to fill out as well as various documents you will need to provide (Please see checklist on our school website)

***GRADE 1-GRADE 6 (No Fee):** Same documents as above

If you are NOT a resident of the Winnipeg School Division:

***NURSERY PROGRAM (FEE):** You will be required to fill out several forms and provide documentation as well as pay the fee of \$5900.00 (subject to change) for the school year.

***KINDERGARTEN-GRADE 6 (No Fee):** You will need to fill out the forms and provide the documentation as well as fill out a Non-Resident Form

ALL REGISTRATIONS ARE BASED ON APPROVAL BY PRINCIPAL

If your child attends Tyndall Park School:

***NURSERY-GRADE 6:** Students will be automatically preregistered for next year at the same school

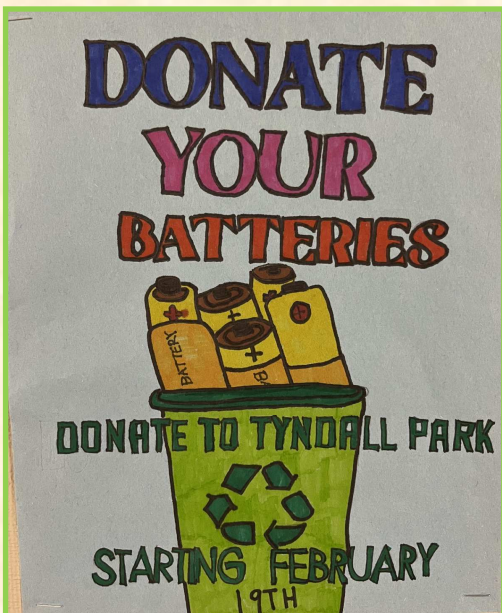

If your child will be changing schools:

Please inform the office immediately if you are planning on changing schools. You will need to fill out registration forms at the forwarding school. Students in Grade 6 will have received forms from Stanley Knowles School in the spring.

If you have any questions regarding registration for Tyndall Park School, please call the office at 204-633-0065 or visit the WSD1/Tyndall Park School websites for more information.

BATTERY BLITZ CONTEST

Tyndall Park students are positively, super-charged to be participating in the Battery Blitz Contest! You can help us out by digging through your junk drawers for those old, dead batteries and sending them in to the school. By doing so, the school's ESD Committee (Education for Sustainable Development) can win up to \$3000.00 for ESD projects at the school. The school's mission is to collect as many used batteries as we can and dispose of them in the Call2Recycle collection boxes that are around the school. The challenge, which started February 19th, will run until Spring Break. So let's reach out to family and friends and get those batteries in AAA-SAP!

Our Kernels fundraiser has come to an end and we are pleased that so many families participated. Your support goes back into the school and covers various resources, equipment and activities for students. This year our fundraiser was to cover the cost of new games for games club, leasing costs of 5 Smartboards, and a new parachute for the Phys. Ed class. Together we were able to raise \$4437.81!. We are hoping to get the orders out before Spring Break. Once again, we thank those families that were able to participate and to staff & parents who helped organize this fundraiser.

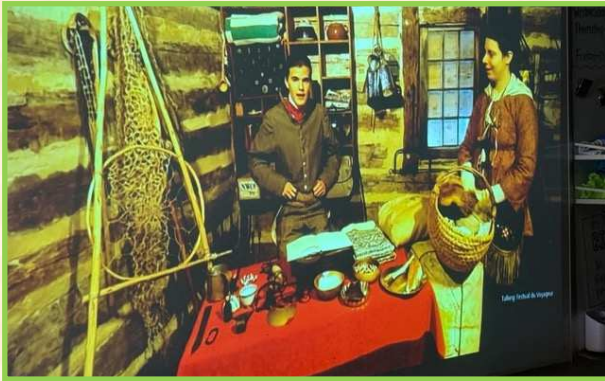

WINNIPEG ART GALLERY FIELD TRIP

On February 23rd, the grade 5/6 classrooms went on a field trip to the Winnipeg Art Gallery. Students participated in the ‘Inuit Sanaugangit & Indigenous Stories Through Art Tour’. The field trip also included a stop at the WAG’s printshop where students got to create their own stamps! The field trip was part of students’ Indigenous learning in the classrooms. Next up, is a field trip to the Aviation Museum which will add to students’ science curriculum about flight.

FESTIVAL DU VOYAGEUR IN GRADE 5/6

February was a busy, learning month for Tyndall Park students in grades 5 & 6! On top of all the 'I Love to Read' activities, students in P3 also had a virtual visit from the Festival du Voyageur. Presenters talked to the students about the fur trade and what you might find at the trading posts. In room P1, students had the opportunity to become a voyageur via green screen. They have been learning about the Metis culture and Louis Riel. Lots of incredible and creative learning happening in the classrooms!

VIRTUAL VISIT IN P3

LEARNING ABOUT THE METIS PEOPLE

BEADWORK IN P1

WHAT IS LIKE TO BE A VOYAGEUR?

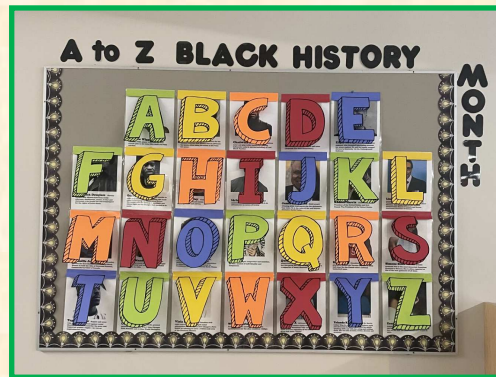

I LOVE TO READ FEBRUARY

The month of February was a very busy one with 'I Love to Read' activities throughout. Students got to create their own bookmarks, as well as participate in D.E.A.R. (drop everything and read), teacher swap, read aloud challenges and various other fun activities to get students excited about reading! February's theme for 'I Love to Read' centered around Black History month. Grade 5/6 teachers created a colourful, interactive bulletin board for students to discover and learn more about the many outstanding Black individuals from pop culture, history and sports. Each letter of the alphabet represented a celebrity or famous figure that students got to discover and learn more about.

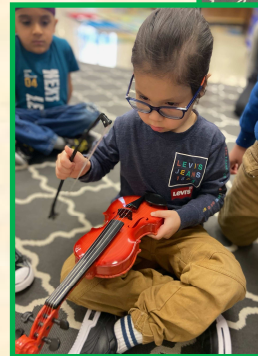

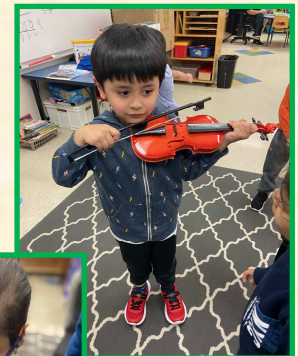

UNDER THE 'L'

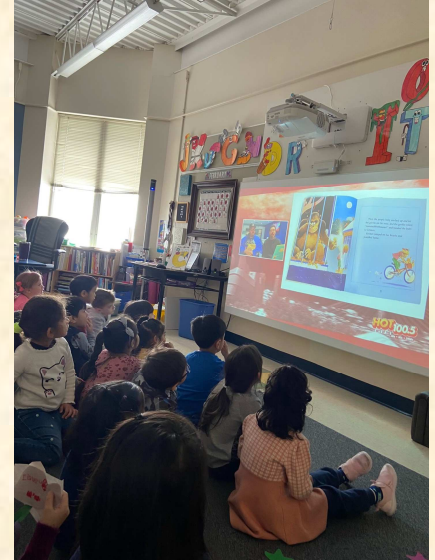

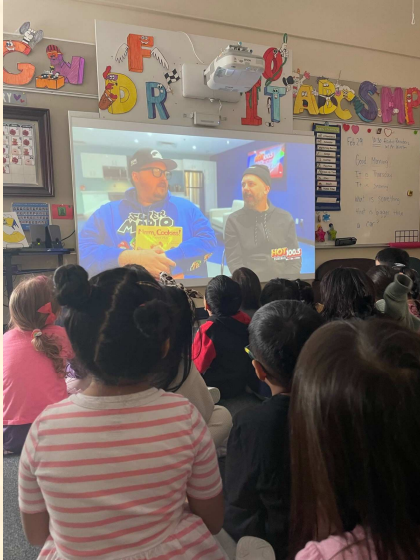

UNDER THE 'U'

We had some wonderful guest readers visit classrooms. One guest in rm. 23 was Grant Anderson, from the Louis Riel Institute. His pseudonym for writing the Metis History Series is Jean LaPrairie, a name he borrowed from his grandfather. Mr. Anderson also brought with him colouring books, activity books, and a toy Red River style fiddle for each student in the class!

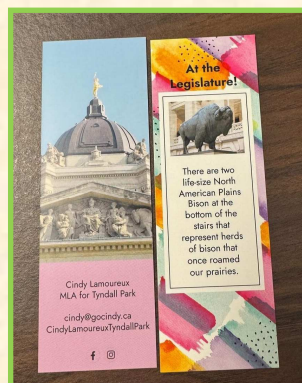

I LOVE TO READ FEBRUARY (cont'd)

Nursery and Kindergarten also had a virtual read with Mark & Dilly from the radio morning show on 100.5. They read two Robert Munsch books to the delight of the students. Always a favourite read-aloud! Thanks to Mark & Dilly for taking the time to read to and encourage our very young readers!

MLA Cindy Lamoureux, who finds the time every year to visit our school for 'I Love to Read' month, managed to stop by twice during the month and read to several of our classrooms. Cindy also gave out some bookmarks with some legislative building trivia on them. Ask your child what the trivia tidbit was. She also answered student questions about politics and her role with the government. We thank Cindy for stopping by and helping promote reading everyday!

I LOVE TO READ FEBRUARY (cont'd)

The month long reading activities ended with a short assembly that included a slide show of all the book/series bulletin boards that classrooms were asked to decorate. Classrooms were also entered into a draw to win a prize based on how many books they read all together. See if you can guess the two books below based on the bulletin boards! Remember, reading to your child everyday, positively impacts students and helps to be successful throughout their educational paths. We would like to thank students for all the reading they did this month, to staff for making it a month of fun reading activities and to all our wonderful guest readers for taking the time at our school!

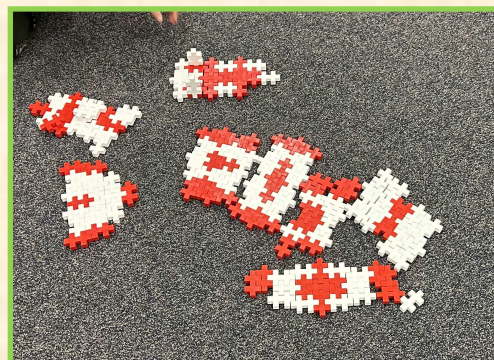

WHAT POPULAR BOOK IS ABOUT WIZARDS AND FANTASTIC BEASTS?

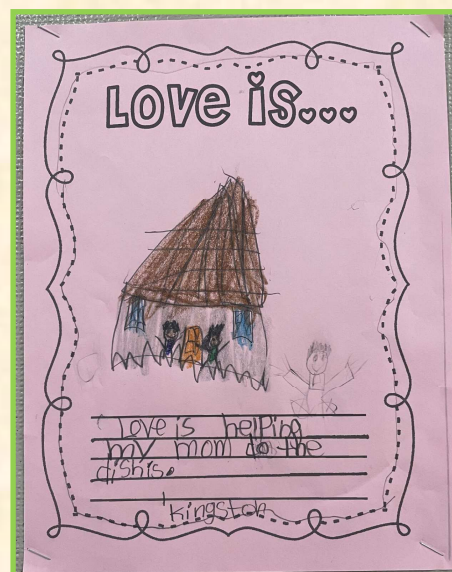

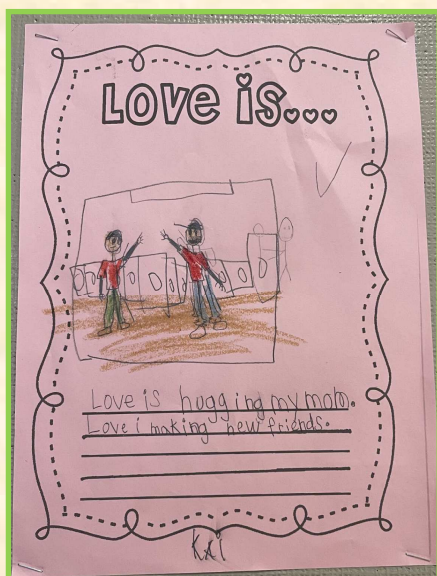

WHO COULD THESE BEARS BE?

GRADE 1 IS BUSY!

As well as celebrating 100 days, grade 1 students were also visited by MLA Cindy Lamoureux for 'I Love To Read' month. She read a classic Curious George story and handed out bookmarks to each student. Grade 1 students loved the story! Room 12 has been busy this month! They had another visit with Mrs. Huggins from Young Designers who did a lesson on the Canadian flag. Students were grouped into pairs and had to use 20 red and white blocks to create the flag. The challenge was to figure out how many of each colour was needed. Students did an amazing job!

Students in room 13 turned Valentine's Day into a creative writing activity about what they feel, 'Love Is...'. There were some very amusing and interesting descriptions and drawings. Good job room 13!

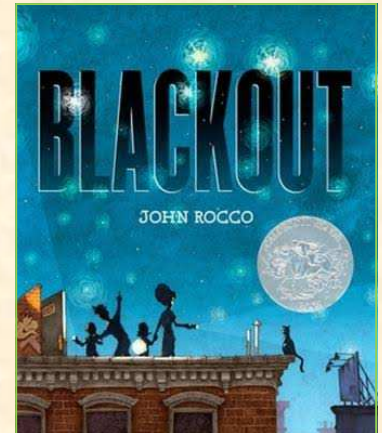

YOUNG DESIGNERS COMES TO AN END

The Young Designers program has completed its six week run! We hope the families involved had a fun time discovering and learning together. We would like to thank our Tyndall Park families for their participation and we would also like to thank Mr. Charbonneau and Ms. Huggins-Frank, for their leadership and coordinating our parent/student evenings.

Also, a shout out to Salisbury House for providing the food each

evening of Young Designers. The Young Designers program incorporates the theory that playing together can be learning together. Each session gets families to invent, design, create and share. The last evening ended with a reading of the Caldecott Honor Book, 'Blackout' by John Rocco, followed by a hilarious shadow-puppet show performed by students. If you haven't already, check out this book with your child!

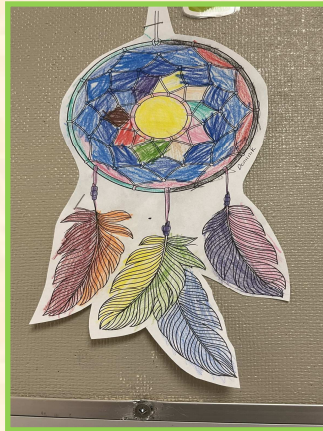

GRADE 6 VOLLEYBALL TOURNAMENT

February 13th proved to be a very busy day here at Tyndall Park School! Along with it being our 100th day of school, the grade 6 volleyball tournament also took place. Visiting schools participated in a full day event! The gym saw standing room only as there was a full house of students, teachers and coaches from surrounding schools, Shaughnessy Park, Garden Grove, Faraday and Stanley Knowles. We would like to thank all the coaches for their hard work and to Convener and Tyndall Park School Phys. Ed teacher, Ms. Dow for putting together another great tournament!

SMUDGING CLUB

Smudging Club students have been learning about Dreamcatchers and the meaning and tradition that surround them. The club has been a great addition to our ongoing Indigenous studies that takes place within the classrooms. Students have been participating in a lot of hands-on projects and story-telling during their meeting times which take place every Thursdays over the noon hour. Check out a couple of the creative Dreamcatchers students coloured.

ONLINE SAFETY IN GRADE 5/6

Officers from the Winnipeg Police Service visited Tyndall Park School's grade 5 & 6 students to deliver a presentation about 'Online Safety'. It was very informative! Students learned about the pros and cons to online activities such as gaming and social media. They also learned about screen time's negative effect on mental health, creating a digital footprint, and the legal age of consent when downloading and using Apps. The constables stressed that hobbies and interests *other* than technology is very important to children's well-being. Please remember to limit screen time and monitor content. Have conversations with your child about what they do online.

ROOTS of EMPATHY

In February, our focus was on Safety. Mommy Huma shared to the students that since Nova has been crawling a lot now, they have to baby-proof their home. The information she shared reinforced the learning that the students had during the pre-visit.

There were also discussions on how to protect the baby from the harms of second-hand smoke, alcohol intake during pregnancy, as well as reducing Sudden Infant Death Syndrome (SIDS) when babies are put to sleep on their backs.

Our Little Teacher Nova showed us a range of emotions on this visit, too. She started off in a happy and active mood, however she got tired and hungry so we had to pause for a snack break. Once full, she was again happy and even clapped. Way to go, Nova! We are excited to celebrate your next milestones!
