- 6. Sources of Strength – new program we are implementing at AMVC focused on building positive connections and belonging. The primary focus is to harness the power of peer social networks to change unhealthy norms and cultures. Sources of Strength moves beyond a risk-focus and utilized an upstream approach, mobilizing a group of powerful peer leaders to spread messages of hope, help and strength through their school and community.**
- 7. After School Engagement Hub Grant- AMVC has put forth a proposal for this grant that would pay for 2 teachers to host a homework club after school. The grant also provides funds for snacks for students to have**

during the homework sessions. We are keeping our fingers crossed that we are selected to move forward with this program.

8. Photo Retakes – will take place on Nov.30th.
