Arts:

Visual Arts
Drama
Dance
The art curriculum will be implemented thematically with other subjects

French Language Arts:

Verb conjugation	Sentence structure
Grammar	Sound study
Reading	Reading comprehension
Literacy groups	Oral speaking

French Development:

The goal is for all students to speak in Français to the best of their abilities while in class, with both the teacher and other students. Creating a Français environment not only increases verbal language acquisition, it also helps with both reading and writing skills! Parents can help their child develop their Français skills at home by exposing them to the language on the radio (CBC Radio Canada 1050 AM) and on TV (CBC Radio Canada, channel 10 on both Shaw and MTS). Please use www.bescherelle.com as a resource in French to help with verb conjugation and www.wordreference.com as an online French/English dictionary.

Communication:

Communication and updates between teacher and parents can be done via the Seesaw Parent/Family App. Please ensure that you are connected as a parent (it is different than the student version) and that you are checking for any new messages. Any news that is time sensitive will be sent out to all parents via the Seesaw Parent/Family App.
